Director

## MEMO

Date: November 17, 2020

To: LCC Members

From: Tom Day 

Subject: Publication Pricing

The LCC sets the prices charged for the **Legislative Highlights** and **Summary of Legislation**. Due to the lag time between the availability of the publications and the receipt of the printer's bill, you have historically set the price in the year preceding the publication.

Legislative Highlights and Summary of Legislation were not printed by the state printer for the 2020 legislative session. As in the past, copies of both were available for individual printing for individuals on the Kansas Legislative Research Department website.

If publications are printed by the state printer following the 2021 legislative session the following prices, which includes sales tax are recommended:

**Legislative Highlights** \$0.75 per copy

**Summary of Legislation** \$15.00 per copy

I recommend the 2021 publication prices for **Legislative Highlights** and **Summary of Legislation** be approved as presented.
