Chairperson Ron Ryckman
Legislative Coordinating Council
Room 370-W, Statehouse
BUILDING MAIL

Dear Chairperson Ryckman:

On behalf of the Joint Committee on Kansas Security (Security Committee), I request Legislative Coordinating Council approval for one additional meeting day during the 2020 Legislative Interim.

The Security Committee met on November 16 and has additional questions for representatives of the Department of Labor, for which they needed additional preparation time; also, those questions could not be answered in an open session. The Legislative Division of Post Audit has additional information technology (IT) security reports that the Security Committee wishes to hear. The Security Committee also will seek additional IT information from the Judicial Branch.

The Security Committee hopes to meet in early December. Thank you for your consideration of this request.
