The Legislative Coordinating Council (LCC) gave approval for the Project Steering Committee to negotiate a Phase 1 build contract for the KLISS Modernization Project during its meeting on February 23, 2022. Phase 1 included an updated bill and amendment drafting system and a new design for the Legislature’s website. Phase 2 of the project would include Chamber Automation, Legislative Research, and Committee systems. After negotiations were completed, the LCC approved the contract for Phase 1 during its September 23, 2022, meeting, with the contract being fully executed on October 19, 2022.

The Project Steering Committees, June 30, 2023, KLISS Modernization Project Report to the LCC expressed its intention to begin planning for Phase 2 of the KLISS Modernization Project, including the use of Federal ARPA funds to pay for Phase 2. Subject to final LCC approval, Federal ARPA funds totaling $5,000,000 have been designated for the completion of Phase 2 of the KLISS Modernization Project.
